Oceana Project Reported Now 75 Percent Complete, Jeff Work Starts Jan. 1

Plans for $1,515,272 in improvements at Jefferson High School and a $401,800 bid for construction of the second part of Westmoor High School were approved at the Monday night meeting of the Jefferson Union High School District Board of Trustees.

In addition, Superintendent Edward D. Morgan reported to the board that the $2,600,000 Terra Nova High School in Pacifica was practically completed and in use and that construction of Oceana High School, also in Pacifica, at an estimated cost of $2,600,000, is now about 75 per cent completed.

Construction on new classrooms to Jefferson High will begin in January. Plans call for 23 standard classrooms, three commercial rooms, five science labs, two arts and crafts rooms, one library room, electric shop, photo lab, administrative unit and storage space.

Cost is broken down, not including a gymnasium, to: survey of plans, $105,980; on site work, $284,784; new construction, $873,998; reconstruction of auto shop, $52,523; furniture and equipment, $118,141, and contingencies, $47,445.

Ninety per cent of the construction will be done west of the present Jefferson High School cafeteria and shop area. Completion date is set for February, 1963, with an expected enrollment of 1,500.

2ND PROJECT PLANNED

When the old building comes out, a second increment of construction will follow. The construction is being designed so that many classrooms can be used and converted into other uses to accommodate the

Survival Class To Ask Facts

What plans the school districts and the city has for individual and group survival in case of an attack by a foreign power constitute the major portion of questions that will be asked of school and city officials Oct. 5.

The questions will be put to superintendents of schools and a representative of the city government by members of the Adult Evening School class on Individual and Family Survival at Westmoor Little Theater during a meeting scheduled for Thursday night, Oct.

Food, Booze, Pots, Pans & Gems Stolen

From earrings to bourbon and Scotch and bicycles to pots and pans and groceries thieves and burglars made sure that they were not going to go either thirsty or hungry with hauls they made in Daly City this past week, according to Daly City Police reports.

Whether it was the same burglar or burglars working in each instance wasn't disclosed. The one who worked over the residence of Alberto Serna, of 867 Bellevue avenue, carted off earings, pearls, an electric shaver, cufflinks, and even an alarm clock, police said.

He also made sure he would not go hungry by taking 15 pots and pans, a quantity of groceries, a carving set to cut the roasts, handkerchiefs, sheets and a dozen or so towels. Of course, he also took some suitcases in which to haul his loot, according to the reports to police.

Two bottles of bourbon and two of Scotch as well as $8 in cash, a transitor radio and tan plastic case valued at $20 were stolen from the home of John Silver of 622 Niantic avenue by a thirsty thief, police reports disclosed.

The Westlake Television store, 345 So. Mayfair avenue, reported the loss of a transitor radio apparently removed by a customer who walked in, took a look at the set, and then walked out with it without leaving even a dime on the counter, Jerrold Strauss, 202 Westridge avenue, reported to police. He said he was busy with another customer when the theft occurred.

Two chrome spotlights were stolen from the parked auto of Norman Sontag, 231 Abbot street, last Friday night and Jeanne Edwards, 401 Westmoor avenue, reported the theft of a bicycle from Avalon and Northridge streets.

Big Turnout Reported Ready For City's Civic Banquet This Saturday

A cocktail hour will proceed the dinner, starting at 6:30 p.m., and the banquet scheduled to start at 7:30 p.m. John Putkey is chairman for this, the last of the preliminary events, leading up to the start of the week-long celebration on Oct. 7. and running through Oct. 14.

Dinner music for the affair will be provided by Don Frank, popular San Francisco organist, and the "Donettes," well-known Bay Area vocal trio, will present a half-hour program of popular and semi-popular songs.

The Golden Anniversary Celebration will get under way at 2 p.m., Oct. 7 with a giant parade down Mission street. Participants will include some of the top bands, marching units, drill teams and equestrian units in Northern California. Grand Marshal for the parade will be Jay Alexander, master of ceremonies of the popular children's program, "Marshal Jay," on Television Station KPIX.

It will include 130 units and will be one of the biggest and best events of its kind ever staged in the Bay Area, according to Michael DeBernardi, parade chairman.

Also scheduled for the first day of the celebration is a spectacular fireworks display from the Crocker Hills and a street dance featuring a waltz and jitterbug contest on Hillcrest drive.

Other events during the celebration will include a special religious program featuring a 150 voice choir; an old-time vaudeville show featuring acts tha were headline attractions during Daly City's early years; a special salute to Daly City in words and music from San Francisco State College and a variety of other musical and dancing progarams.

A mobile barbershop display will feature the songs of various barbershop quartets throughout the celebration and a giant "big top" at Palmcrest drive and Southgate avenue will cover a commercial garden exhibit which will include $50,000 worth of plants.

For the children, there will be free stagecoach rides every afternoon at the Westlake Shopping Center. Another continuing event will be daily exhibitions in gun handling and gun safety by Frank James, popular quick-draw artist and general manager of Frontierland in Linda Mar.

Two highlights from the variety of attractions at the War Memorial Community Center will be a musical program presented by Romero's Music Studio in conjunction with the Y.W.C.A. Dancers and a children's dancing program presented by the Shipley-Smith School of Dance.

A special feature of the Shipley-Smith program will be a roller skating act by the Rollerettes, a precision group that has won awards throughout Northern California.

The festivities will end with a Grand Ball at the War Memorial Community Center on Oct. 14.

At the Medical Center it was determined the boy was suffering from a fractured skull. Investigation further disclosed he had fallen from his tricycle and struck his head on the pavement.

Big Special Edition Is Due Oct. 4

Next week, Marchbanks Publications will publish a special edition devoted to the Golden Jubilee celebrating Daly City's founding 50 years ago.

The special edition will consist for the main part of two special sections replete with stories of the old times in this area, interviews with many of the leading old-timers still alive, and reports of others concerning their memories of some of Daly City's first citizens who helped found the city but are now dead.

The pages of the special anniversary number will also contain many old-time pictures, including buildings, scenes and groups. Many of these have not heretofore been published.

Eagles Plan To Hold Open House During Jubilee

The Daly City Fraternal Order of Eagles, Aerie No. 1848, will hold open house for all Eagles and their friends at the Eagles hall, 3344 San Jose avenue, to help the city of Daly City celebrate its Golden Anniversary.

The festivity will start Thursday night, Oct. 5, with a visit of the State President Robert McLennon. This will be a district meeting with Daly City Aerie being host to San Francisco Aerie No. 5, Golden Gate Aerie No. 61 and Mission Aerie No. 2877. There will be a short meeting and initiation and a dinner. This meeting is for members only.

On Friday night, Oct. 6, and every night until Saturday, Oct. 14, the hall will be open to members and their friends. So come on up and help the Eagles help our city celebrate its Golden Anniversary.

Board Puts 'Gofus' On The Termites At New Jeff High

Termites will be no problem in the new classrooms of the Jefferson Union High School, due to action taken by the high school district board of trustees Monday night.

The board allocated $1154 for a combination termite-fungus removal job. Paul Reiter, associate architect for Marlo J. Ciampi, said the ground would be sterilized so the boring variety of termite will not crawl into cracks in the cement blocks and into the new buildings.

This, however, does not stop flying variety, if there are any about, he added.

changes and class conversions.

Construction will start about Oct. 15 on the Westmoor project. Low bidder is Martinelli Construction Company, 1580 Folsom street, San Francisco.

The $401,000 project includes $8,200 for adding new gymnasium lockers, $6,154 for on-site improvements, $3,138 for fire protection system and $3,642 for moving a kiln and preparing a new kiln area.

Inspector Ernest Coxon reported the Oceana High School project is 75 per cent complete. The academic building plumbing is 95 per cent complete — heating and ventilating 85 per cent complete — millwork approximately 75 per cent complete. Top soil will be placed on playfields and turfed areas will be planted this fall.

The Terra Nova High School project is 93 per cent complete, and final construction is expected within 45 to 60 days, Morgan said. The project called for eight classrooms, five science labs, woodshop, electric shop and mechanical drawing room.

STUDENTS SUSPENDED

Supt. Morgan reported recent five-day suspensions were handed out to six students from Terra Nova High School, four for smoking and two for fighting. Three Westmoor students were also suspended, one for smoking and two for defacing property. The number of suspensions, Supt. Morgan added, are "about par for the course," for the approximate 4,300 students in the high school district.

NEW SECRETARY HIRED

The board hired Mrs. Lynne Sandquist as secretary to the business manager, effective Monday, Sept. 18. Mrs. Sandquist worked the past two years for the Richard Hanlin Company as bookkeeper, secretary and receptionist for five full-time CPA's.

Also hired were Mrs. Louise Caldwell, 1070 Fairview lane, Pacifica, as cafeteria helper, and Arthur Gorman as standby bus driver. The district uses 13 school buses.

The board increased substitute teachers' pay from $18 per day to $20, in line with a recent recommendation by the San Mateo County Superintendent's Association.

Teen Club To Launch City Wide Drive For Members, Both Youths And Adults

Plans for a city-wide membership drive for the Westlake Teen Club will be discussed at a meeting of the new club Monday, Oct. 2, at 7:30 p.m., at the club's new headquarters in Broadmoor, according to A. L. Ickler, one of the adult organizers.

The club has just recently been granted the use of the Broadmoor Community Center at White and 87th streets in Broadmoor as a permanent headquarters, Ickler said. The Broadmoor Property Owners' Association made possible the use of the center, he said.

While officers have been elected from among the more than 30 'teen members of the club, the by-laws, principles and ideals have not as yet been completed so the announcement of the officers elected is being held up until such time as these are completed.

The club membership has voted to hold regular meetings every first and third Monday nights monthly. Some of the activities under consideration include a Hallowe'en Dance, once each month and perhaps Saturday night dances at least the staging of a "Teen-Carnival."

MEMBERSHIP OPEN

Although the club bears the name "Westlake Teen Club," its membership is open to all residents of the Jefferson Union High School District, including Westlake, Broadmoor, St. Francis Heights, the older sections of Daly City and environs, according to Ickler.

Non-members, both adults and 'teen-age boys and girls are urged to attend the meetings, Ickler said. "We particularly need more interested adults to join the Teen Club and act as consultants and advisors for the teen officers and committee heads," he declared.

Teen Clubs, similar to the one being organized here, have been very successful in other parts of the country, he pointed out. When they are given the responsibility of running their own club, making their own rules of conduct, and planning their own good times, the teenagers show exceptional and constructive abilities, according to various authorities interested in teen-age group work, he said. Additional information on the new club may be obtained by telephoning Ickler at PLaza 5-9041.

Survival

(Continued from Page 1)

5, at 8 p. m.

Ed Morgan, superintendent of the Jefferson Union High School District; Richard Foster, superintendent of the Jefferson Elementary School District, and Phil Brown, administrative assistant to Daly City's city manager, will be asked the questions.

The adult evening class concerned has been studying Individual and Family Survival under the regular Adult Evening School program. The class is instructed by Frank Terranova, a Westmoor High School science teacher, who has made special studies of survival courses.

The request for information on plans of the school districts to evacuate children in case of such an attack and the city's plans for individual and group survival of other residents came about when the class decided it wanted more data along these lines. A petition circulated in the class requested that the authorities mentioned be asked to appear before the class and give them any information that might be available, according to Louis Martin, principal of the Adult Evening School program.

There are about 3000 wholesalers in San Francisco whose annual sales total well over $5 billion.

FARM WORKERS' DEDUCTIONS WILL BEGIN

October 1 is the date on which employers of agricultural labor in California must begin deducting one percent from the wages of their farm workers for disability insurance purposes.

This was stressed today by J. F. Bollenbach, auditor-in-charge of the State Department of Employment's Audit District Office in San Mateo.

The one percent deduction from farm workers' wages is required under a new law passed by the 1961 Legislature. Farm workers will be covered by the same disability insurance and hospital benefits program which has covered employees of business and industry in California since 1946. Benefits will be payable for periods of disabling sickness or injury not connected with the job, occuring on and after May 1, 1962.

Although farm workers will pay for the program through the one percent deduction on the first $3,600 they are paid in wages, their employers are responsible for collecting the money and sending it to the Department of Employment in Sacramento at the end of each calendar quarter. In 1962 the one percent deduction will be on the first $4,100.

All employers who pay more than $100 in total wages to farm workers in any calendar quarter after Sept. 30, 1961, are subject to the new law.

Failure to deduct the one percent makes the employer liable for the full amount of the disability tax.

J. F. Bollenbach said that any employer of agricultural labor who has not registered with the Department of Employment as an employer, should come to his office at 272 E. 19th avenue, San Mateo at once, or telephone FIreside 1-6111, or write for a Registration Form for Agricultural Employer, complete the form and mail it to the Department of Employment, 800 Capitol avenue, Sacramento.

Pacifica Man Named As Parks Foreman

One of the two local men who competed in an open examination for the post of Pacifica park foreman, Louis Starelli, of Pacifica, for the past two and one-half years a park maintenance man, was appointed to the foreman's post by the Pacifica Park, Beach and Recreation Commission, Tuesday night, Sept. 19.

Prior to being employed by the park commission, Starelli was on the staff of the City of Pacifica's Department of Public Works. He was one of six persons who took the examinations for the park job. Four of the applicants were persons residing outside of Pacifica.

IT'S NEWS TO VETS

Q.—I am a widow of a deceased World War II veteran, and have been told I may be eligible for death pension, but not death compensation. What is the difference?

A.—Dependent survivors may be eligible for death, or dependency and indemnity, compensation if the veteran's death is the result of a service-connected disability. Death pension is paid if the death was from causes not connected with the veteran's service. There is a difference in rates of payment.

Q.—What happens to a veteran's National Service Life Insurance if he neglects to name a beneficiary to collect the proceeds after his death? Do the funds remain in the Treasury?

A.—If no beneficiary has been designated, or none is alive at the time of the insured's death, the proceeds are payable in one lump sum to his estate.

Q.—How does the VA define "child" for the purpose of death pension?

A.—The term "child" means a person unmarried and under 18 years of age, or under 21 years of age if pursuing a course of instruction approved by the VA, or of any age if the VA determines that the child became permanently incapable of self-support by reason of physical or mental defect prior to age 18.

Q.—Are present servicemen covered by government life insurance?

A.—Not unless they have policies issued before April 25, 1951, which they have kept in force. No military service since December 31, 1956, has entitled a serviceman or woman to government life insurance. However, those separated from active service with a service-connected disability may apply to VA for special "RH" insurance. That is the only government life insurance contract that is issued based on current military service.

Observance Set For Employment Of Handicapped

Bay Area cities will join with other communities throughout the nation in observing "National Employ the Physically Handicapped Week" which will start on Sunday, Oct. 1.

Observance of the Week has been proclaimed by President Kennedy and endorsed by Governor Brown.

It was in August of 1945 that Congress passed Public Law 176 designating the first full week in October in that and succeeding years as NEPH Week. The broad purpose of the legislation is to win support and interest from the public in the employ-wise qualified, but physically handicapped workers, and to promote intelligent integration of them into the work force of the nation.

There will be special activities before and during the week that will focus on its aims and objectives.

JOSEPH CONWAY of Terra Nova High School's counseling staff is seen here attending the intensive training course in guidance and counseling of high academically-able students. It was a six weeks' course held at Sacramento State College. Thirty public school educators participated. Conway is at the left in the photo, the other two are Merrill Convis, Sir Francis Drake High School, San Anselmo and William Caldwell, Healdsburg Junior High School.

The View From ...Behind The Badge

AN OPEN LETTER TO PARENTS*

Dear Parent,—

With the children back in school after a long summer off, we parents might have a little bit of a tendency to breath a sigh of relief, and to relax just a little. This might be especially true of a harassed mother, who is worn out from the last-minute rush to get the children's school wardrobe together in time for classes, and from the every-morning rush to get the kids to school on time.

It occurs to us, both as parents and Police, that perhaps we let down too much. We are all a part of the education system. All of the classroom education in the world is not going to be of much use to our children if we cannot get them to and from school safely.

What have you done to help keep your child's name out of the obituary column? Did you know that child-pedestrian accidents are the most frequent of our annual traffic death toll?

You can help reduce the exposure of your children to traffic hazards on their way to school by helping them select the safest routes.

There is no one rule for getting to school safely. Conditions vary from community to community. In Daly City, conditions vary from school to school.

We suggest that you take your child aside for a quiet talk. Talk with him about some of the guiding rules — and here's another thing: let him know, by your own actions, that the rules apply to you, too. How many times have you seen a hurrying mother drag her child across the street against the signal light? This, sometimes over the child's protest!

How about mentioning these guiding rules to your child?

1.—Look both ways before crossing the street.
2.—Keep from between parked cars.
3.—Obey traffic signals.
4.—Face the traffic when walking on roads without sidewalks.
5.—Cross only at safe corners, even if you walk farther.
6.—Refuse to ride with strangers.
7.—Watch for turning cars.
8.—Choose the route with the fewest streets to cross.
9.—When possible, cross streets where there are traffic helps.
10.—Walk, don't run, across streets.

These are good rules for protecting the child from traffic. But how about Rule No. 6? This is not only a traffic help, but a guard against child molesters.

Discuss the matter calmly with your child. Be sure that you have instructed him what to do if he is approached by a stranger; such as:

1.—Refuse to get into a stranger's car, or to go anywhere with him, and get away as fast as possible.

2.—Report the incident to you, or his teacher, or the Police.

3.—If possible, get descriptions of the car and the person. These should be reported to the Police.

If you, yourself, see anyone acting suspiciously around a playground, or near children anywhere, don't become upset. Observe him so you can identify him later. Get the auto license, if you can, and call the Police.

Usually, we try not to say "DON'T" too often to our children—but here are some important "DON'TS" to give your kids:

DON'T ever get into an automobile with a stranger. DON'T even go near the car.

DON'T let anyone fuss with your clothes.

DON'T go away from the playground or school with a stranger.

Well, we have given you a lot of advice about your own children. We mean it well, and don't mean to pry into your affairs. These are your children, to be sure, but they are also ours, in a sense.

Parents put a lot of effort and moey and love into raising their children. Don't let your effort and money and love be wasted merely by neglecting to have this little talk with the children.

With the children back in school we should remember that you, the parent, and we, the police, are also in the education business. Let's teach the kids enough to get them to school and home again safely.

Very truly yours, The Daly City Police Department.

* HISTORICAL NOTE: In 1928, the Daly City Police Department consisted of four men. They were Chief Jack Doyle, and Officers Otto Schramm, Barney Hilton, and George Hopman. Otto Schramm is now a Sergeant with the California Highway Patrol. The other men are now deceased. Chief Doyle was killed on duty. Hilton was later a chief in this Department.

* HOW TO CALL THE POLICE: Dial PLaza 5-4212. If you forget the number, ask the operator to notify the DALY CITY POLICE. Remember that your telephone company in this area is centralized in nearby San Francisco. If you merely ask for "Police," you are likely to get the San Francisco Department. This will delay the reponse to your complaint.

If you cannot locate an officer, and there seems to be no phones nearby, you can place a call for POLICE at the nearest Fire House.

In case of an emergency, of course, the Fire Department may be contacted in the same manner. Call PLaza 5-4212. At other times the Fire Department may be contacted at the business number, which is WY 2-1144.

Among the unusual cats to be shown will be Burmese and Abyssinians, show officials announced.

Bay Area Rapid Transit District To Submit Official Plans By Nov. 1

The Bay Area Rapid Transit District will submit its official plans to the county boards of supervisors no later than Nov. 1, and a bond issue to finance the project will go before district voters next June 5.

This schedule was set last week by the district's board of directors, despite the recent action of the Golden Gate Bridge and Highway District which virtually eliminates Marin County from the transit program.

The bridge district had refused to agree to the creation of an impartial engineering board of review to settle the engineering controversy relating to the installation of transit facilities on the Golden Gate Bridge.

However, the transit board agreed at a special meeting to go ahead with the over-all program on its planned schedule.

It ordered the district's engineering staff to begin immediate preparation of a four-county transit plan to be submitted by Nov. 1 to the boards of supervisors. And it stipulated that Marin County can be included if circumstances should permit.

In a second resolution, the directors requested that the supervisors of San Francisco and Marin Counties join with them in the creation of the engineering board of review to settle the Golden Gate Bridge question. If joint financial participation is not acceptable, the transit district will pay for the study itself, they said.

"Our position is that this important public issue cannot be left unanswered," the district's president, Adrien J. Falk, explained.

"At the same time, we have no other course but to develop a four-county plan, while at the same time continuing our efforts to find ways and means to keep Marin County in the district."

Falk said it is imperative that a rapid transit program be submitted to the voters of the Bay Area no later than the state primary election of next year.

"To accomplish this we cannot stand by waiting for a final resolution of the Marin County situation." He pointed out that extension of the regional transit system into Marin County is impossible without using the Golden Gate Bridge.

BARTD's special engineering consultant, Dr. Carl H. Gronquist, has determined that installation of transit rails on the span is both feasible and practicable. He said in his report to the district that the aerodynamic characteristics of the bridge would be improved by the modification.

Creation of the special engineering board of review was recommended by the district after Clifford E. Paine, the bridge district consultant, had disputed Gronquist's findings.

"We believed this would be a reasonable course," Falk asserted in his statement to the board. "Our position was — and is — that a difference of opinion between two engineers should not be allowed to stand as the final determination in a matter of such vital importance to the public."

"If the difference of opinion between engineers that existed back in the 1930's had been treated in the same manner, the Golden Gate Bridge would not link San Francisco and Marin today," he added.

"We certainly are not, as some bridge directors have erroneously charged, asked anyone to 'gamble' with lives or with the safety of the bridge," Falk said. He noted that talk of erecting another bridge to Marin County holds no early promise of providing transit service to the North Bay Area.

Such a bridge, if and when built, he said, probably would cost as much as $500,000,000—this compared with the $16,000,000 cost of installing transit facilities on the Golden Gate Bridge.

A new span also would necessitate slow transit speeds over a longer distance, and it would fail to serve the populous western section of San Francisco, as well as the southern portion of Marin County.

United Crusade To Seek Help Of Businesses

Volunteers from local agencies of the United Crusade of San Mateo County will visit local business houses next week (starting Monday, Oct. 2) as representatives of the Business Division of the 1961 Crusade campaign.

Paul Hupf, chairman of the North County Business division is concerned that local business men and women be informed of the vital importance of the Business division campaign and that give as much support as possible to the local drive.

Hupf points out that most of the persons who will be making the rounds in the business districts are residents of the community in which they are soliciting. Each one has given many hours to one or more of the Crusade agencies and "These people really know what the Crusade means to the local community."

Hupf explained that the services of United Crusade agencies reach four out of every five persons in the area each year and that success of the Crusade campaign is of utmost importance this year if these agencies are to continue to meet community needs.

In the North County area, Crusade agencies and business leaders have assumed responsibilities of the Business division as follows:

Pacifica: Boy Scouts of America, Dr. Jerry Miles, chairman; South San Francisco: Business men, Milton Bronstein, chairman; Daly City-Colma: Boy Scouts, Fred L. Martin, chairman; and North County YWCA, Mrs. Eleanor Raymon, chairman; San Bruno: Girl Scout Council of San Mateo County, Mrs. M. E. Everhart, chairman.

Abe Lincoln School Divided Into Eighteen Classes, New Teachers

Abraham Lincoln Elementary School in Daly City is into its 1961-62 year now with a large enrollment of school children from the Westlake Heights and the Westlake Palisades districts. It is divided into 18 classes from the first grade through the sixth grade, and into four classes of kindergarteners.

Twenty teachers form the faculty. Dr. Lloyd Andrews is the principal, and Mrs. Miriam Davis, school secretary.

Both kindergarten teachers, Mrs. Miriam Holmberg and Mrs. Kay Bollendonk, have returned this year. Of the four first grades, three of the teachers, Mrs. Arlene Byers, Mrs. Judith Williams and Mrs. Lea Fox, have returned. Mrs. Carol Gillis, new to the district, is the fourth first grade teacher.

The three second grades are taught by the same teachers who served these classes last year. They are Miss Carol McHugh, Mrs. Barbara Ryan and Miss Peggy Kirk. Among the third grade teachers, Mrs. Olga Pless and Miss Lynnette Hoffman have returned, as has Miss Jacqueline Long, recently of New York and Pennsylvania State University.

A new grade, a third-fourth combination, is taught by Mrs. Joan Williams.

Mrs. Ann Byerly, new teacher at the school although experienced in the Jefferson Elementary School District, is teaching one fourth grade, while Miss Sylvia Little, recent graduate of San Francisco State College, is teaching the other fourth grade. Mrs. Katherine Gerdes, former fourth grade teacher, has been given charge of a newly formed fourth-fifth grade class.

Michael Pennings and Mrs. Nettie Herbert again teach the two fifth grades. Daniel Marsh returned as sixth grade teacher with Miss Elizabeth Wilson, recent student at Stanford University and U. C. L. A., as the other sixth grade teacher.

This year the Westlake Heights and Westlake Palisades students, who are brought to and from school by bus, are joined by more than a hundred nearby children who walk or bicycle to school.

Hire Handicapped Drive Launched

A drive to urge more employers to hire physically handicapped people wherever possible was launched here today by the San Mateo County Society For Crippled Children and Adults.

"Each year finds more employers hiring these people because facts and actual experience are dissolving old fears and prejudices," declared St. George Lafitte, president of the Easter Seal Society.

The drive will receive national attention during the week of Oct. 6, when leaders throughout the nation will call on industrial leaders to cooperate on the problem.

Lafitte said that study after study has proved that handicapped people, if properly trained and placed, are equal and often superior to able bodied workers.

"They produce as much, don't get sick any oftener, have fewer job accidents, migrate less from job to job and tend to push employee morale up rather than down," Lafitte said.

He pointed out that many firms on the peninsula are going out of their way to hire disabled but skilled workers or are turning over work to the San Mateo organization's sheltered workshop where it is produced at low cost.

The San Mateo County Easter Seal Society is constantly training the handicapped for skilled jobs, thus enabling them to become assets to the community, rather than dependent, which is beneficial to the economy and a source of pride and happiness to the individual.

The San Mateo County Rehabilitation and Research Center is located at 1764 Marco Polo Way, Burlingame.

Skyline Merchants To Stage Big Hoe-Down During Golden Jubilee

An "Old Time Hoe-Down," complete with barbershop quartet, square dancers, an old stage coach and other bits of frolic and fun will be a feature of the Daly City Golden Jubilee at Skyline Plaza Shopping Center the night of Friday, Oct. 13.

Plans for the big "hoe-down" are being worked out now by a committee of the Skyline Plaza Merchants' association headed by Jack Green, shopping center barbershop operator.

There will be a mobile old-time barbershop display, singing barbers with handle-bar moustaches, derby hats, side whiskers and even a few old time brass spittoons, according to green. The mobile barbershop display is a Jack and Woody Green feature.

The show will get underway at 8:30 p.m., Oct. 13, with the quartet followed by Frank James, the quick draw gun-slinging artist, square dancing by from 40 to 50 dancers and audience participation in the square dance numbers.

Three square dance clubs of the Westlake district will be represented, Green said. They are the Kalico Kats, Gingham Squares and Golden Spurs. Caller Don Black of the Kalico Kats, will call the numbers.

An outside bar, complete with barkeeps of the early '90s version, will serve root beer and other soft drinks in the plaza to customers who want to hook their heels on the brass rail.

The stage coach, one of the vintages that raced over the early roads of California back in the gold rush days, will be another feature of the entertainment that night. There will probably also be a number of horseless carriages of the early 90's, Green pointed out.

Everybody is invited to this big hoe-down, the committee chairman said. Everybody is welcome to join in the square dancing and the festivities will be kept going as long as the crowds want to stay.

'What! No Lady's Dainties Sleuth?'

"What! No lady's dainties detective?"

That appeared to be the gist of a complaint made to Pacifica Police yesterday by Miss Jeletta Hardy, 21, of 460 Carmel avenue, Pacifica, when she reported a theft from her clothes line.

She reported to police that she had washed her dainty under-garments and hung them on her clothes line. The next day, she said, two bras were missing and someone had poured laundry ink in a nice pair of nylon panties.

When she asked what the police were going to do, she posed a question that still has Madeline Nickerson, Pacifica Police dispatcher, trying to come up with an answer.

Drive-Up Phone Is Newest Deal To Aid Public

One of the newest innovations in public telephones — a drive-up model which allows a motorist to call without getting out of his car—is being introduced in the Bay Area.

Pacific Telephone announced that to date three of the models have been installed, in San Francisco, Oakland and Richmond, and that others are planned.

The firm said that the new outdoor model means round-the-clock public phone service and provides another outlet for emergency calls to police and fire departments.

The San Francisco drive-up is near the Conservatory in Golden Gate Park. In Oakland one is located at the intersection of Market and 59th streets, and in Richmond at First street and Cutting boulevard.

The drive-up is one of three new types of public phones which PT&T is introducing. The other two are walk-up telephones and sidewalk booths.

Walk-up telephones, designed for locations not suitable for booths, have been placed in San Francisco, Oakland and San Mateo since the first of this year. They come in a distinctive green or orange clor, are lighted 24 hours a day, and are located on private property.

The sidewalk booths, also being installed throughout the area, are designed for the street side of city sidewalks and offer 24-hour outdoor phone service.

Latins Welcome Ben Franklin Teachers

Article 2

"Central American Education"

By Paris B. Simmons

Recently, the four Ben Franklin teachers who traveled to Costa Rica by motorscooter were interviewed by their advisor, Dr. William Cowan of San Francisco State College.

The questions asked by Dr. Cowan were provocative to the teachers, to the extent that the writer feels some of these, with answers, would be of interest to the readers of this series.

In the next article we shall start into Mexico, "Land of Extremes."

Q.—If you were to take this trip, say next year, under similar conditions, what changes would you make?

A.—First there was insufficient time to spend in each country. There was much more we wanted to do and see, but our schedule prevented it.

Second, we would choose another mode of transportation. Not that we do not appreciate the fact that the scooters were instrumental in the success of our trip, but that there are many dangers connected with scooter travel in Central America that should be avoided.

On the positive side, we did not enter one town of any size where we were not greeted by scores of interested citizens, eager to talk with us and extremely interested in the American made scooter.

This opened many doors. On the negative side was the constant danger of traversing roads that were not paved and of great hazard to scooter travel, sleeping out by the highway without any protection of any type and night travel, including the danger of animals on the highway.

Q.—Do you have any desire to return to a specific country? If so, where?

A.—(Each teacher had his own idea.) Two members indicated an interest in returning to each country to explore more fully the back country.

One said he is investigating the possibility of being an exchange teacher for two years in Costa Rica and the other mentioned that he would like to work on a project whereby teachers would spend their summer vacations working with teachers of Central American Republics, bringing American principles of democracy to them and taking home basic understandings of the Central American Peoples and an appreciation of their culture.

Q.—How were you received? Was there any hostility?

A.—One million Noes and one Yes.

In every country we visited we were received with most cordial hospitality. Utter strangers took us into their homes and treated us as members of their families.

In every country the newspapers interviewed us and carried stories of what we were attempting to do. The invitations extended to us were far in excess of what our schedule would permit. Daly City and Ben Franklin School are known in Central America.

The one yes mentioned. This happened in Managua, Nicaragua. It was not hostility from a Central American Citizen, but hostility from an American Principal of a United States Government School.

On arrival in Managua it was late and after checking on several hotels which were extremely expensive, we found a group of Nicaraguan students around our scooters and requested their help in finding lodgings or a campsite for the night. They suggested the American school and took us there.

The school had an outdoor type theatre which seemed to us to be very adequate for our needs, since it was explained school would not be in session for several days due to a national holiday.

We checked with the night watchman and he felt it would be fine to have us stay there. We went to the hotel of the principal and waited three hours for him, but were finally informed that he was at a fiesta and would not be in until quite late,—so a note was left for him explaining our situation.

At 2 a.m., after we had been settled for several hours, our principal arrived. It was during the worst storm we experienced on the entire trip. The principal ordered us to leave immediately, because he said the Nicaraguan members of his school board might be critical.

We moved on about 10 miles down the road and found shelter under a large tree. We returned the next day to visit the principal and express our apologies at his hotel, but he refused to speak with us—perhaps it was the fiesta he attended?

Q.—What about conflict of religion?

A.—Only once did we run into this and this was also in Nicargua. A festival had been planned honoring a patron saint, but banned by the church.

The ban was evidently a result of previous festivals which resulted in drunken brawls.

Members of the church taking part in this festival were warned that they would be excommunicated if they did partake. While this placed a slight damper on the festivities it did take place.

We were warned about going into the festival area, not because we were North Americans, but because the scooters would undoubtedly prove an attraction hard to resist by the native celebrants.

Q.—Which country did you feel was most progressive?

A.—We saw each country as a culture unto its own. We were impressed with Mexico and its struggle against socialism along with its progress in the areas of industry. Quatemale is outstanding in our minds because of the excellent U.S. Government program there in the area of school construction and elementary education.

El Salvador is remembered for its police department and teacher training institution, while Nicaragua shall never be forgotten for its Senorita Sandoval who wrote an excellent volume on the Indian cultures, along with the acting director of elementary education for the Nicarguan nation.

Costa Rica stands out of its "Army of Teachers" and its extremely high literacy rate,—YET, the problems of the countries faced wth political and military uprisings are most evident in prevention of maximum progress.

Q.—What did you see in regards to Communism?

A.—(The two social study teachers in the group disagree on their findings in this area, but general group consensus was:)—

Communism does have a potential in the poorer areas of Central America. A person that has nothing will grab at straws, and Communism is certainly less than a straw.

The person who has nothing and sees nothing in his future will accept the promises which cannot be fulfilled, that the communists have to offer.

There is a great danger here and its prevention will only come through positive action on the part of the United States —not necessarily one of monetary handout.

Q.—What about competition in Central America between North Americans and European?

A.—The American businessman is not making the friends that will encourage the purchase of American made materials.

His concept that "Time is Money" conflicts with the culture of Central America. Germany and Japan have made great inroads because their representatives do not go into Central America and create the impression that "this is our offer, you have to take it," but dine, wine and speak the language of the Central American before atempting to transact business.

Central Americans are social minded and love to bargain and be convinced in business transactions. They do not want to be rushed or pushed into a "deal."

Secondly, on this same item, there is a necessity for education of the population of each country. Cars are almost twice the cost in Central America as in the United States due to custom and import duties.

Central Americans generally feel that this difference is not due to government but due to the high prices that prevail in the United States.

Q.—What are you going to do with the materials collected?

A.—The job of editing and cataloging is our big problem. In the matter of 16 m.m. films we have the excellent help of Mr. Wagner of Daly City, who has already given us many hours of his valuable time and assistance.

We shall be happy, with consent of our local administration to appear before groups and share our findings. We will appear before the District PTA in October and the Ben Franklin PTA in November.

We have contacts concerning the slides and films taken and are very willing to develop this to the extent where we are able to write off a $6,000 deficit on the expedition.

The book, "We Slept in the Damndest Places" is now half completed, and should be ready for a publisher in another two months.

WAX FOR CARTONS

A large refinery, according to the National Automobile Club, can process enough wax in one day to coat 6,110,000 milk cartons.

The tuition fee is 50 cents per session plus Y membership. Upon successful completion, students will be awarded diplomas by the YWCA and will be "Certified YW Wives."

It is important to pre-register for the classes as soon as possible so final arrangements can be made. Call the Y at PL 6-7370 any morning of the week or stop by the office at 375 So. Mayfair, Daly City. The Y is another United Crusade Agency.

NO PEDESTRIAN DEATHS IN 1960 BRINGS AWARD

Daly City was presented with an "Excellence of Pedestrian Protection" award from the American Automobile Association for its achievement of no pedestrian deaths in 1960.

The citation, recognizing the city for its accomplishment in the AAA nationwide pedestrian program appraisal, was presented to the Daly City Council by H. R. Rasmussen, district manager of the California State Automobile Association.

In commenting on the award, Rasmussen said:

"Pedestrian traffic fatalities acress the nation last year totaled 7,850. This contrasts with 15,000 pedestrian fatalities in 1937, the year the AAA pedestrian safety program was launched. The encouraging reduction in pedestrian deaths can be directly attributed to the excellent record made by Daly City and other cities."

(Our city has achieved the record of two years without a single pedestrian traffic fatality.)

The black automobile above is the 1962 Dodge Dart 440, first of the Action-Economy cars. A low-price, full-size Dodge that will outrun, out-economize most any car around. For a fact, it accelerates seven percent faster on five percent less gas than last year's comparable model. Seats are chair-high. There's a fold-down center armrest in front.

The white car is the Lancer GT, America's first Sports Compact. It carries five. Corners flat. Handles neat. Really goes. Bucket seats, all vinyl upholstery, full carpeting are standard.

Full-size or compact, every Dodge is rustproofed. Has a smooth ride. Goes 32,000 miles between grease jobs. As always, Dodge means dependability.

Sai Wu Gardens Announces Two New Features

Sai Wu Gardens, Westlake's popular Chinese restaurant, this week announced the opening of two new features: the Golden Buddha Cocktail Lounge and the Mandarin Room, a dining terrace.

The Golden Buddha Cocktail Lounge is completely new to Sai Wu Gardens. It is exotically decorated in Oriental motif and provides bar facilities which feature both popular beverages as well as tropical and Far Eastern drinks. It takes its name from the huge Golden Buddha which is a part of the decorate scheme in the Lounge.

Sai Wu's Mandarin room is a separate dining room, added to the restaurant to provide facilities for the many customers who have found this to be one of the outstanding Chinese restaurants in the Bay Area.

Sai Wu Gardens is located on Southgate avenue, just west of the post office. It is the second major expansion in the restaurant's Westlake history. When it first opened, as a part of Westlake Shopping Center, it was devoted to supplying Chinese take-out food. Several years ago it moved to its present location and added the restaurant to its take-out food business.

In addition to the Lounge facilities and the restaurant, the preparation of take-out Chinese food is still an important function of Sai Wu Gardens.

The restaurant takes its name Sai Wu from the Chinese characters which spell out the word "Westlake."

Gardener's Checklist

1.—Shop now for spring blooming bulbs while supply is good. You can set them out at your leisure, but buy while all varieties are available.

2.—Disbud Camellias which have set too many buds. It's best to do it now before the shrubs channel any more energy into unwanted buds.

3.—Spray Dahlias, Tuberous Begonias and Roses if you see the slightest sign of mildew.

4.—Plant seedling perennials from nursery flats. Divide established perennials such as Primroses and Phlox which have formed crowded clumps.

5.—Shop for blooming Chrysanthemums to make up for lack of fall flower color in your garden.

Local Girls Report On Three-Month European Tour Taken This Summer

Europe was fine, but the Bay Area is even better. So said Miss Elaine Thomas, 21, of 68 Beechwood Dr., Colma, upon arriving home recently from a three-months tour of Europe.

Accompaning her was her friend, Marilyn Tahara, 21, of 1491 Sequoia ave. San Bruno. Both are seniors at San Francisco State College.

Commenting on her trip, Miss Thomas said "I liked the Spanish and German people very much. The Germans are like Americans. They are willing to use self criticism like us."

Another thing she noticed was that many Europeans liked President John F. Kennedy.

THEY EKKED OUT CASH

The girls returned home "on a wing and a prayer" with just enough money to make a phone call upon arriving here.

And the Bay Area, she said, is "still the swingingest place around."

Miss Thomas has taken part in school dramas and plans to teach in this field upon graduation. Miss Tahara is enrolled in elementary education. They returned to classes at San Francisco State College this past week.

Both pretty brunettes, the girls met the usual appreciation from Italian men. "We'd always look for the American fellows in Italy to get those guys away from us," they said.

"They'd follow you around all day long. It's quite annoying," said Elaine.

TOOK IN THE ART

And while in Italy, the girls took in the arts, where they especially appreciated the works of Michelangelo. "Everything after Michelangelo looked like a pile of junk," Marilyn said.

"After you leave Italy, nothing surpasses it for art," she related. Marilyn "had to be dragged" to see Michelangelo's "David" but once she saw the two-story white marble statue, she was quite impressed. "It was really an emotional experience."

Keeping clean was a problem the girls were confronted with because they were traveling all the time. "I used up six bars of soap," Miss Thomas added.

And coming back on Holland American Liner presented another problem—that of gaining weight. "Each meal," said Marilyn, "was seven courses."

Most European women, they decided, are fatter than their American counterparts. "Except the Spanish women," Marilyn added. "They have better legs than French women and are beautiful without makeup.

TAKEN FOR EUROPEANS

An added surprise of their trip was being taken for Europeans.

Marilyn said Americans would often come up to them and ask them directions.

"What was really funny was when an American would try to explain very carefully in sign language where he wanted to go. We'd wait very innocently, then point and say "It's right down the street."

The girls stayed in youth hotels and traveled on trains throughout Europe, except one instance, when they hitch-hiked from the Chekoslovakian border into Germany.

German boys are nice, says Elaine, because they act poised, informed and remind you of Americans. They are considered adults earlier than Americans," she said.

The girls made the following additional comments about their trip:

MISSED OUR CIGARETTES

Cigarettes: "We lost our taste buds. It's good to be back and have a real American cigarette.

Foreign Languages: We found in the northern countries they generally understood more English. "It's surprising how fast you pick up other languages."

Youth Hostels: "They cost 50 cents per night. You get a bed and shower—mostly cold water. Some are like dormitories and some like luxurious hotels."

Ordering Food: "That was funny—a guessing game. You point to the menu and what you get every single time is a surprise—and we'd eat it too because we were famished. We walked all over the cities."

How To Dress: "That was the joke of the year. We were down to four dresses between us."

After the trip was over the girls decided that "each country has its own personality and to compare and judge in a short length of time is difficult."

They were a bit put out to find that their fellow Americans now expect them to be experts on the European scene.

"We weren't in any place long enough to make really concrete observations," Elaine said.

Theatre Workshop Schedules Adult Evening Classes

The Theatre Workshop scheduled by the Adult Evening School to be held at Westmoor High School on Tuesday evenings at 7 o'clock will instead be held at the same time on Wednesdays, according to John Graham.

The class, directed by Graham, is in the process of choosing one-act plays for production by the group. All phases of play production, including costuming, set construction, make-up, and acting, are slated as part of the study program of the group.

This will be the second year this class has been offered. Last year the class gave an evening performance of readings free of charge to the public. Included were scenes from such familiar plays as: "Auntie Mame," "The Glass Menagerie," "Anastasia," "Private Lives' and "The Women."

All interested persons are invited to attend these classes. For information call Randy Marcus at PL 6-5097.

LOCAL GIRLS tell about their European trip—Elaine Thomas (left) and Marylin Tahara (right) smilingly tell just what they think of the people they met in Europe. They also told about the guessing games they played in the matter of ordering food from the menus by pointing the finger.

10 Field Trips Slated At Vista Mar School

To make learning more concrete, realistic, and interesting, teachers at Vista Del Mar, 725 Southgate Ave., have already scheduled ten study trips or educational tours.

Aside from the academic values derived from this activity social values are more than apparent, namely, the opportunity for children to plan and work together, make decisions, learning appropriate behavior patterns and being able to disagree courteously relative to others opinions and cultural backgrounds.

No study trip is ever taken without the consent of the parent, who is notified in writing and signs a permission form for her child to accompany his class. School buses, provided by the district, take care of the transportation.

Prior to the educational tour pupils are motivated at the classroom level by discussions, visual aids, bulletin board displays and sharing past experiences and background information.

Following the class' return from this realistic experience reports, creative art, attitudes and generalizations are made by teacher and class to further enrich the learnings derived.

Records are also kept at the school level so that evaluation of the trip can be helpful and serve as a guide to other staff members.

AFTER THIRTY-THREE years of service to the people of Daly City as a letter carrier, Vincent Greco, 480 Skyline drive, Daly City, was honored recently by his fellow workers at a retirement dinner held at the Steak Pit. Certificates of commendation from Postmaster-General Day, and Regional Director Raymond Holmquist were presented Greco by Postmaster Vincent P. Murphy of Daly City. Greco, an avid fisherman, was provided with fishing equipment by his fellow workers as a parting gift.

Dart Victim Is Better; Boy Did Not Smuggle It

Apparently fully recovered from a dart injury, Ann Marie Freel, daughter of Mr. and Mrs. Harry Freel, 767 Lockhaven drive, Westview, has returned home from Kaiser Hospital and is expected to return to her classes in the fourth grade at Westview School in about three days.

Ann Marie was injured when a dart thrown on the school grounds by Darrell Gilbert, 9, another fourth grader, struck her in the forehead the morning of Sept. 18.

It was at first reported that Darrell had smuggled the dart into school but this was later disproven when it was learned that another boy had brought the dart to school. There were, actually, three boys involved in the dart incident to some degree or another, Principal Roy Carver said.

MAILMEN U.S.A. — A book written by William C. Doherty, president of the National Association of Letter Carriers, is donated to Daly City Library in Westlake. Librarian Sam Chandler (left) accepts book from Robert Wyman, 36, of 98 Mar Vista Dr., Daly City, president of the Daly City Branch of Letter Carriers. The book is a narrative of union activity, coupled with a plea for drastic revision of postal policy and other practical suggestions. at 3 p.m. on the Westlake Mall.

At this time, parents visit in their respective children's classrooms to become acquainted with the curriculum, methods of teaching, and matters of school routine.

Purposes and goals for the school year are discussed, and parents are given an opportunity to ask questions about the educational program.

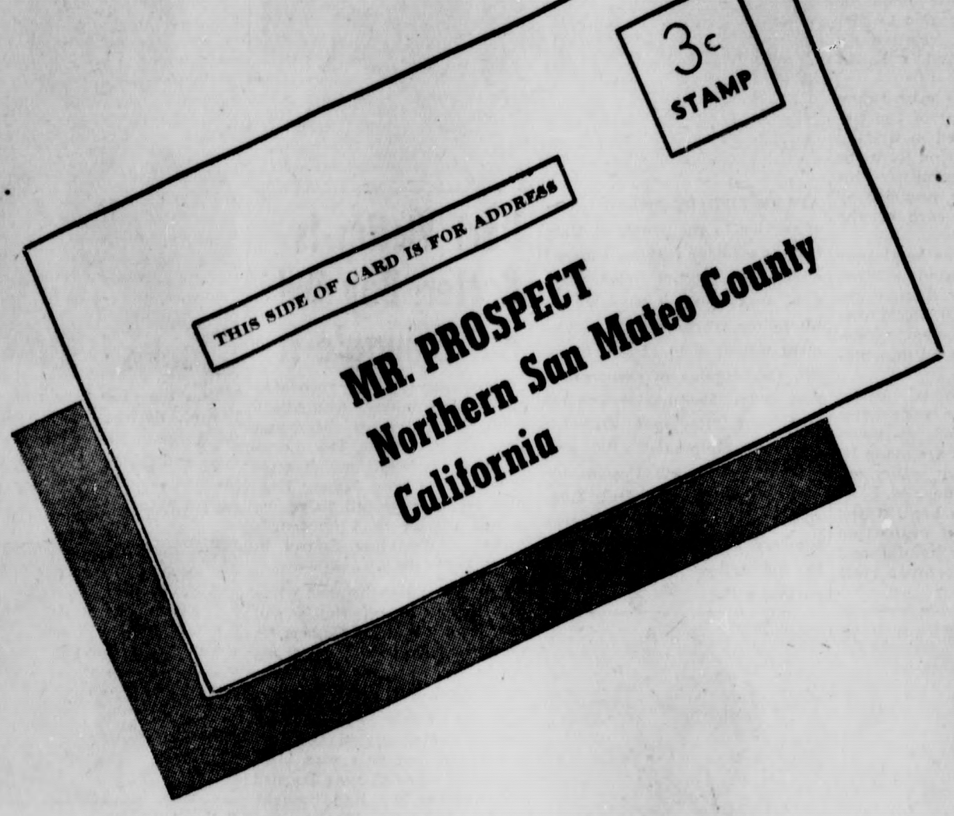
QUIZ FOR ADVERTISERS

Q. How can you effectively and economically present a selling message to 35,000 Northern San Mateo County families? CHECK ONE.

1. POSTAL CARD . . . 2. LETTER . . . 3. ADVERTISING FOLDER . . .
4. A WESTLAKE TIMES-DALY CITY SHOPPING NEWS ADVERTISEMENT . . .

A. A Times-Shopping News advertisement, by an astounding margin.



COST ANALYSIS

POSTAL CARD—The old "Penny Postal" today costs you three times as much — 3 cents — $1,050 for postage alone to send a very brief message to 35,000 names. Cost of engravings, printing, addressing, compiling or buying a mailing list, delivery to the post office, other expenses could easily double or triple that figure, bringing your cost to as high as $2,000 for one message.

A LETTER—Here your costs are even higher — $1,400 for postage alone if you mail first class. Individually typed letters would be prohibitive in cost; the expense of a form letter would include cost of the paper, mimeographing or printing, addressing, enclosing and excessive handling expense in addition to postage. Your cost to reach each family would run 10 cents or more, for a total of $3,500.

ADVERTISING BROCHURE—Your message in type and pictures would cost at least as much as a letter, probably considerably more. A conservative estimate would be $2,800—and could run to much more, depending on size, use of color, etc.

A TIMES-SHOPPING NEWS ADVERTISEMENT.* For $1,050--- the cost of 35,000 postal cards---you can present your message in the Times-Shopping News 20 straight weeks, in a space 2 columns by 11 inches (three times the size of a postal). No mailing, addressing, printing expenses to send your sales message into 35,000 homes. And your art work is free if you take advantage of our Senior Metro Service.

Or you could run TWO full pages in the Times-Shopping News for $672.00 and still have $382.00 left over for other promotional purposes. Imagine the impact of a "double truck" ad reaching 35,000 homes (and think of the contrast between a two-page ad and a 5" x 4" postal).

And you could run a two-color "double truck" ad, and still easily stay within the $1,050 that 35,000 postals would cost you.

CONCLUSION: To cover Northern San Mateo County with your advertising message on the doorstep of EVERY one of its 35,000 homes, take advantage of these outstanding media today!

Westlake Times — Daly City Shopping News

***And, by the way—your column inch rate to reach 35,000 homes is far lower than ANY OTHER weekly media in the area.**

(Example: Pacifica Tribune—16 cents per inch per thousand homes reached; SSF Enterprise Journal—9 cents per inch per thousand homes reached; Times-Shopping News—6.2 cents per thousand homes reached.)

The event honors the 150th anniversary of the birth of Bishop William Ingraham Kip, first missionary bishop to the state of California, often called the father of the cathedral system in the United States. The Rev. James P. Shaw, S.T.M., rector, will officiate at the 11 a.m. service.

Dr. Garrett, a former Trinity seminarian, is professor of church history, Church Divinity School, Berkeley. He is noted as a lecturer, for his work in education, and as a member of the Church Historical Society and American Society of Church History, and has earned degrees from various universities, including a Ph. D. from Harvard, and his S.T.M. at Harvard Divinity School.

Bishop Kip's beautiful Bishop's Chair will be moved from Trinity's little chapel to the church chancel for the service. A collection of mementos of his distinguished career will be on display during the coffee hour following.

The spirited pioneer missionary bishop was called to his gold-hungry new mission territory in 1854. The day of his arrival he held services in the mother church of the Pacific Coast, Trinity, then located at Pine street near Kearny.

After three years of hazardous travel through his extensive parish, the Diocese of California was recognized in 1857, and he was unanimously elected the first Episcopal Diocesan Bishop.

During his exciting career he not only guided new parishes into life, but organized the Church Home Association (now the Protestant Episcopal Old Ladies's Home), St. Luke's Hospital and the Maria Kip Orphange, named for his beloved wife.

After nearly four decades as spiritual overseer of the pioneer diocese, ill and almost blind, he retired. His last official act was to ordain his grandson, The Rev. William Ingraham Kip III (Canon Kip) in Grace Cathedral in 1892.

The following year Bishop Kip passed away and was buried beneath an Ionic Cross in Iona Churchyard of Cypress Lawn Cemetery.

San Pedro Avenue Too Narrow For Jubilee Parade

Mayor Francis Pacelli, coordinator of the Daly City Golden Jubliee celebration Oct. 7 through Oct. 14, explained Tuesday morning at a committee breakfast why the gigantic parade for the opening of festivities had to be routed the way it has been set up.

"Some people have wanted to know why we don't extend the parade down Mission street to at least the junction of San Pedro avenue and El Camino Real," he said. "It is very simple. San Pedro is too narrow a street to permit the passage of a parade such as we are going to have and that particular junction is too serious a traffic hazard at present. Therefore the parade is turning off Mission west onto Vale and thence up Station avenue to end at Jefferson High School football field."

GARDEN VILLAGE PTA MEMBERS IN BIG RESPONSE

"What will bring you to a PTA meeting?" was the question asked of Garden Village PTA members this week.

The response indicated that parents in this area are interested primarily in panel discussions of children's problems and in lectures by doctors and psychologists concerning children's difficulties. At least one such program is promised within the next few months.

The survey also indicated that children's performance (skits and glee club presentations) would draw a good attendance at meetings, as would "just plain interesting speakers." A few parents indicated a desire to hear educators from other schools and universities, some evidenced a liking for Scout performances, and a very few displayed interest in discussions of adult problems. If any of the parents of the unit have further program ideas, they are invited to call Mrs. Jack Bertken, unit president, PL 6-3353.

At the present time, Mrs. Bertken and members of the executive board are actively formulating plans for autumn, with emphasis on the October membership drive and membership participation in the unit's projects. Since it was voted last year to discontinue September meetings, the first gathering of the new term will not be held until October. They found that the people that owned the jackass were going to move in a few days and thereby remove the menace to early morning slumber of Pacifica's residents. So, the jackass was allowed to stay.

Jeff-Westmoor Point For Big Game Friday, Tigers In Varsity Go

The winless Jefferson High School Indians tangle with Westmoor this Friday in a game that will be televised on Saturday on KGO-TV. And the Terra Nova Tigers make their first bid in Varsity play Friday at Woodside High School in Redwood City. The Tigers start league play the following Friday against Jefferson High.

Westmoor whipped Jefferson High, 14-13, last year and although Westmoor Coach Pete Matisi believes Jefferson is more experienced, he says his boys will be "up for the game."

His team last Friday, made plenty of mistakes in ball handling, but won, nevertheless 13-6 against Ravenswood High School in Palo Alto on two scoring thrusts which included a touchdown pass from quarterback Steve Furnai to left end Steve Schunck and six yard plunge by halfback Mike Barich.

TEAM LOOKS GOOD

All in all, Matisi says he is pleased with his young club. They are coming along, he said, and will get better every game.

Jefferson High suffered a 20-7 defeat last Friday against Menlo Avenue High School on the home field, despite an outstanding offensive performance by quarterback Bob Miller and defensive support by Larry Ahuna and Dennis Nemani. Coach Joe McGrath says he will have to count on all his players to beat Westmoor and will be especially looking for the seniors to pull him through.

The Jefferson blue and gold last year suffered six straight winless league games before a final 26-20 victory over South San Francisco, who shared the cellar position with Jefferson in the Peninsula League.

The Terra Nova football coaching staff includes Floyd Gonella of San Francisco State, assistants Jess Jones, San Francisco State; Al Figone, University of Wyoming and Don Delbon from University of Oregon. Head Coach Gonella, Delbo and Figone all graduated within three years of each other from Jefferson High School.

YOUNG GREEN SQUAD

Coach Gonella said "We feel we have a bunch of young and inexperienced boys entering varsity play." Last year, he said, the club won five and lost three in a "real tough junior varsity league."

"The jump from junior varsity to varsity is a big one and the pressure is on."

"We may win a few and might surprise a few people. The boys are ready. Win or lose, it'll be an experimental game."

Terra Nova's starting lineup: Bob Simmons, center; Dan Gentry, left guard; Manuel Pick, right guard; Ken Murphy, right tackle; Ken Kirkland, left tackle; Bob Pettit, left end; Tom Swinger, right end; Don Katono, quarterback; Jim Boyette, left half; Fred Mason, right half; Dennis Caruthers, fullback.

Terra Nova defensive: Bob Aslan, tackle; Bill Hensley, end; Jim Buchanon, end; Kim Post, halfback; John Cook, quarterback and halfback.

Jefferson High lineup: John Moreno, right end; Jerry Silverman, right tackle; John Fernandez, right guard; Joe Bollenti, center; Craig Garcia, left guard; Al Lonstrom, left tackle and Bob Brush, left end. Backfield: Bob Miller, quarterback; Sam Ennon, right halfback; Bob Kasper, left half and quarterback and halfback; Henry Anduha, halfback.

Westmoor High lineup: Steve Schunck, left end; Jeff Miller, left tackle; Steve Attell, left guard; Mike Pignataro, right guard; Richard Ullo, right tackle; Darrel Ober, Garry Allard, right end. Backfield: Steve Furnai, quarterback; Mike Kearney, left half; Mike Barich, right half and Harry Brown, fullback.
